MISSION & TAGLINE

MISSION STATEMENT:

To enrich the quality of life for children and adults with disability through outdoor recreation.

TAGLINE:

Transforming lives through outdoor recreation

HISTORY:

The Outdoors for All Foundation began in 1978 with fifteen children with disabilities learning to downhill ski at The Summit at Snoqualmie. After a successful first season, the program was incorporated as a 501 (c) (3) nonprofit organization in 1979 and originally called the Ski for All Foundation.

Because of its history, Outdoors for All may best be known for winter season instruction in sports like snowboarding, snowshoeing, cross country and downhill skiing. Besides these snow-based activities, Outdoors for All also provides instruction and outdoor activities including cycling, hiking, river rafting, kayaking, day camps, water skiing, rock-climbing, camping and customized group events.

Outdoors for All is a customer driven organization where each year more than 2,400 children and adults with disabilities exercise their abilities thanks to the training and support of more than 700 volunteers.

IMPACT font should be used for headers and subheaders. Most headers should be all caps. Subheaders, lower case.

MYRIAD PRO CONDENSED should be used for body of text and majority of print content, including the foundation footer. You may also use bold or italic versions.

ARIAL REGULAR & NARROW should be used in electronic, on-line, web and email applications. Arial fonts are common across all operating platforms and will give consistency in content delivery.

Use "narrow" where possible and "regular" as default when not available. "Narrow" is closest to Myriad Pro Condensed.

TOPO MAP GRAPHICS

The Topo Map graphic is used mainly as a background within branding applications. When using behind text, in most cases, the topo graphic should not exceed 20%. Between 8% and %15 is the ideal to make sure content can be read. This also applies to putting topo graphic over images. Keep the opacity low so it is used in a subtle manner.

Although other branding colors can be used for the topo map graphic, it is recommended the three included colors on this page are what you should stick to for consistency. These colors include: Grassy Green, Rock Grey and White. Use Grassy Green with summer themed designs utilizing the green palette of brand colors and the Rock Grey in winter themed applications.

NOTE: Always do test prints when ordering print materials so you can adjust the opacity as needed in each application.

GRAPHIC/SOCIAL BLOCKS

These graphics can be used in conjunction with images and in design layouts to help bring attention to tagline as well as other related social hashtag phrases commonly used by Outdoors for All. **These include:** [#abilityinaction](#), [#sharetheawesome](#) and [#exerciseyourabilities](#)

The Graphic/Social blocks can be used in both design capacities of having transparent lettering OR a solid color. Care should be used when using graphic/social blocks so you don't lose the message in the image. Choose solid or transparent lettering where appropriate. It is also advised you use the Outdoors for All logo in conjunction with these social blocks to make sure to utilize both a brand logo and the social/graphic block.
