

LAUNCHING POSSIBILITIES

— C A M P A I G N —

EVERYONE DESERVES
TO EXPERIENCE THE
POWER OF THE
GREAT OUTDOORS

TRANSFORMING LIVES

Outdoors for All creates opportunities for anyone, with any type of disability, to experience the simple joys of riding a bike, skiing a mountain or paddling a boat. We deliver adaptive recreation to replace trepidation and fear with confidence and joy. We empower volunteers to cultivate compassion and build lifelong friendships. We activate partnerships to leverage resources and advance the missions of other organizations. Outdoors for All transcends recreation and truly changes lives.

COLLECTIVE STORIES OF TRIUMPH

The impact of Outdoors for All can only be measured with the collective stories of each individual. The veteran who finds a new path and way to cope through a cycling team. The family who seeks an activity to enjoy together and discovers it on the ski slopes. The child with autism who looks forward to summer camp all year long.

It is a parent watching their child blossom through riding a bike for the first time. It is the independence gained from exercising abilities and forgetting challenges. It is the sensation of self-confidence that spurs from success. It is the simple joys of freedom and fun that arise from physical exercise.

LAUNCHING POSSIBILITIES

Since 1979, Outdoors for All has helped people of all abilities enjoy the mental and physical benefits of an active lifestyle. The expertise of our staff and dedication of our volunteers has allowed us to keep pace and grow with the ever-increasing need for our impactful programs. From our start as a small adaptive skiing group serving 15 kids to the thousands of lives we impact today, Outdoors for All has become a robust organization poised to do more. The diversity of disabilities we support matched with the vast choices of outdoor activities we offer has made

us as a national leader in adaptive and therapeutic recreation for children and adults.

We are proud and humbled by the impact of our work and we know the time to act is now. To meet the growing needs of our community, we are embarking on the **Launching Possibilities Campaign with a goal of \$10M** to build a new community base camp and significantly expand our programs.

A CRITICAL POINT OF CAPACITY

Every year, Outdoors for All is unable to serve thousands of individuals who deserve to experience the joy of outdoor recreation.

We have expanded and stretched to meet the needs of our community but we are now at a critical point of capacity.

Our current physical infrastructure is no longer adequate. Our central offices at Seattle's Magnuson Park, crammed into a former military prison, do not have enough space to grow our team, programs or partnerships. Our current space does not offer the welcoming place our community deserves, one that is fully accessible to people of all abilities.

PARTNERSHIPS

We cannot deliver on the requests from other organizations to add Outdoors for All to their programs.

VOLUNTEERS

We do not have sufficient space to train our essential volunteers, which limits the number of people who make our life enriching work possible.

EQUIPMENT

We have the largest fleet of adaptive cycles that we know of in the country but cannot fit all the equipment in our facilities, causing inefficiencies with maintenance and access.

SATELLITE FACILITIES

Our aging facilities at the Summit at Snoqualmie need critical updates. We lack a more permanent base of operations on the Eastside.

We are eager to continue to meet the rising need for our mission. We know we can and must do more.

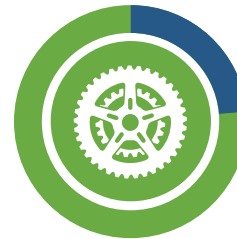

45%

45% of our participants report that transportation is a barrier to participating in Outdoors for All's programs.

73%

We are only able to provide summer camp experiences for 73% of the children with disabilities who want to register.

30%

Only 30% of our adaptive cycles are accessible at any given time due to our lack of space.

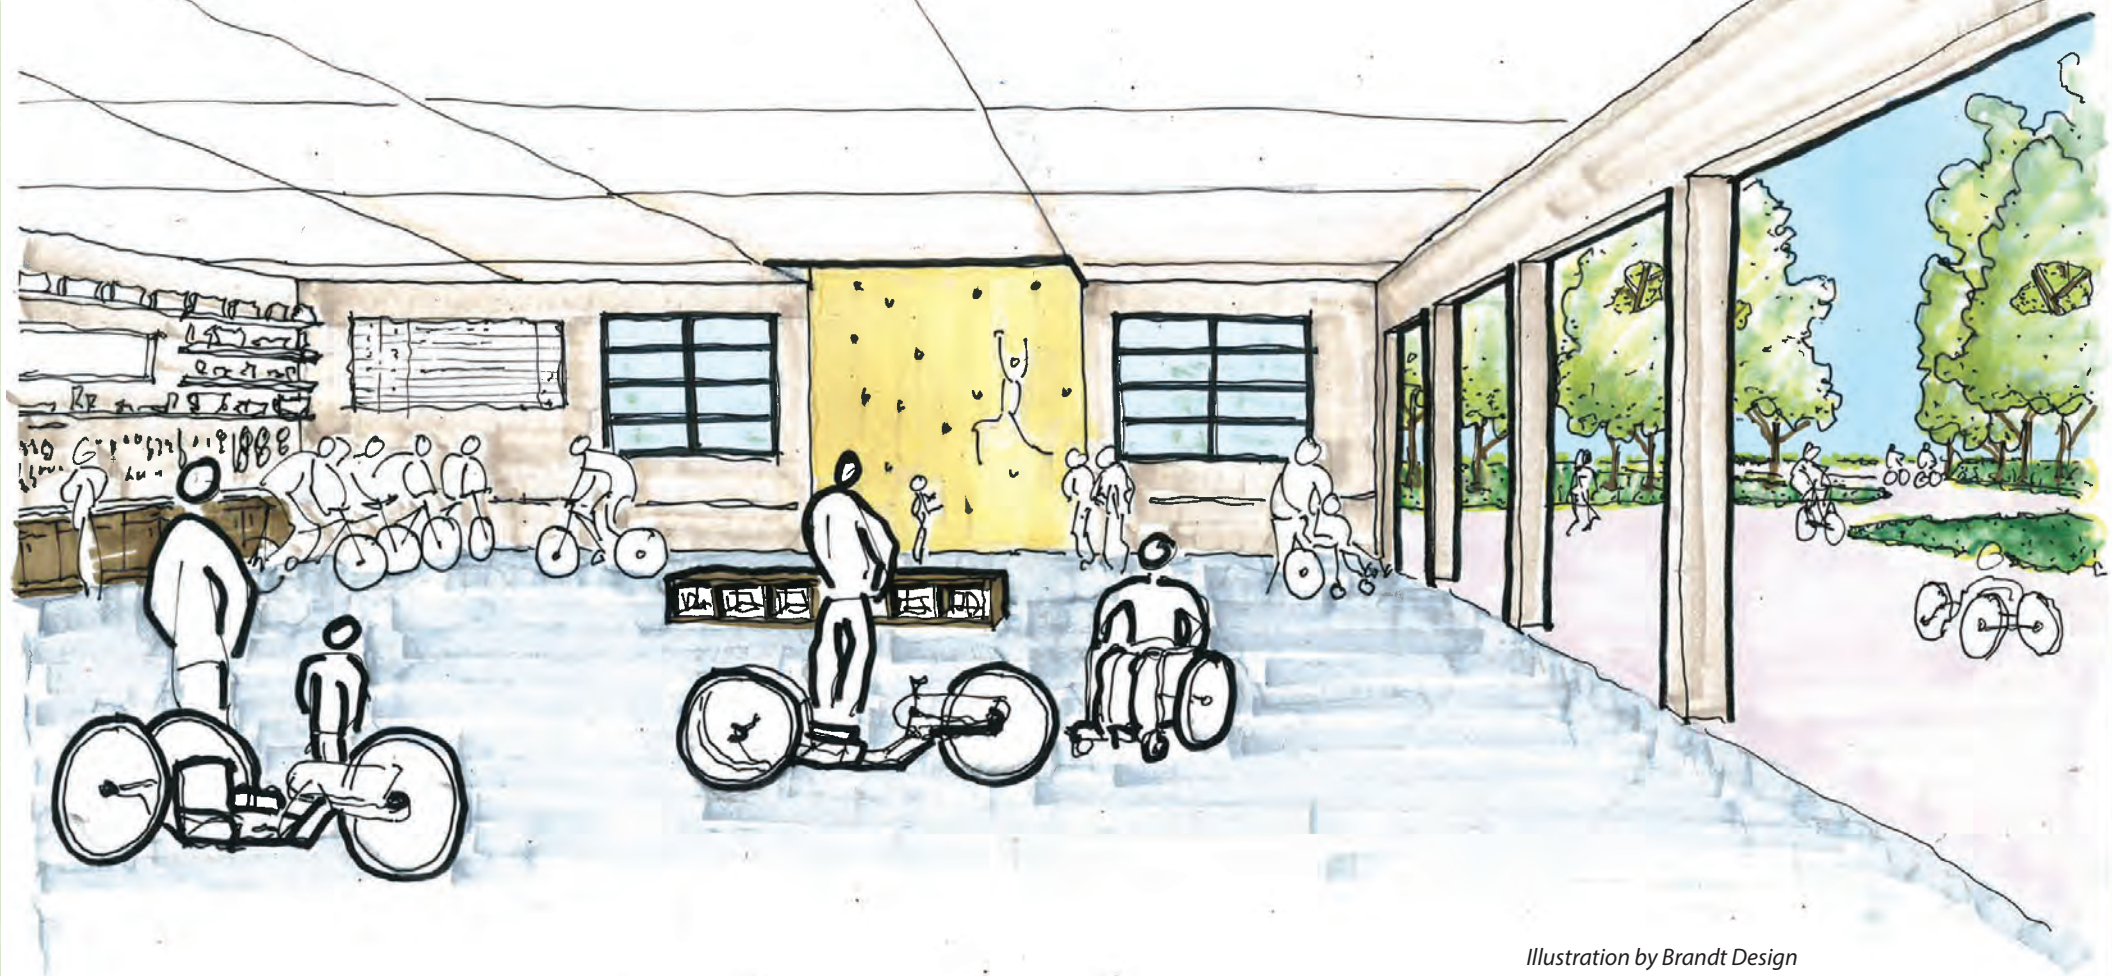

A BASE CAMP FOR OUR COMMUNITY

With your support and leadership, Outdoors for All will create a destination worthy of our participants.

Working together, we can shape a center around the specific and diverse needs of our community. A space that reflects our values and improves our ability to effectively deliver programs on and off site. A place with curated amenities and details to serve people of all abilities. A hub for our community, enhancing the quality and increasing the quantity of life changing experiences we deliver.

The Base Camp will include:

MULTI-USE RECREATION AND EDUCATION ROOM

to accommodate larger groups for volunteer trainings and select indoor program activities such as spin classes, yoga, and day camps

STATE OF THE ART ADAPTIVE CYCLING CENTER

to better utilize our inventory and create a dedicated workshop for maintenance, custom fittings and safety classes

SENSORY FRIENDLY TECHNOLOGIES

throughout the building, such as noise canceling or light dimming amenities, to ease transitions into camps and other programs

COMMUNITY GATHERING SPACE

for our volunteers, participants, and their families to socialize and deepen relationships

A LAUNCH PAD FOR POSSIBILITY

The new base camp will be a launching pad to take our current programming to scale and serve thousands more individuals across the region.

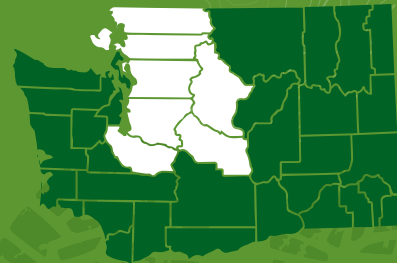

200%

A new base camp will help us double the amount of experiences we provide from 8,500 to 17,000 annually.

75%

75% of our participants utilize financial aid scholarships.

We are proud to deliver adaptive recreation programs throughout the State of Washington. The majority of our life enriching programs are currently in King, Snohomish, Skagit, Whatcom, Pierce, Chelan, Kittitas, San Juan counties.

**EXPANDING
TRANSPORTATION
SERVICES**

to and from our bases of operation links people across our region to the support they need

**GROWING OUR
PARTNERSHIPS BY 25%,**

allows us to most effectively focus on high-need demographics, including youth with physical disabilities, recovering veterans and young adults transitioning from school programs to independence

**INCREASING OUR PRESENCE
THROUGHOUT THE REGION**

and improving our facilities at the Summit at Snoqualmie creates more opportunities for individuals to experience the impact of our programs

**INCREASING
FINANCIAL AID BY 125%**

to diminish economic barriers that hinder children and adults from experiencing the joys of outdoor recreation

CAMPAIGN

GOAL

\$10M

UNLOCKING POTENTIAL & ENLIVENING POSSIBILITY

With your partnership, Outdoors for All can transform thousands more lives every year. Together, we can unlock potential and enliven possibility for people of all abilities.

The Launching Possibilities Campaign with a goal of \$10M will build a new community base camp, significantly expand our programs and partnerships, support new equipment and increase financial aid.

We have the opportunity to double our impact. Within the first three years of opening our doors we will increase the number of experiences we provide annually from 8,500 to over 17,000.

A TRANSFORMATIVE INVESTMENT

Your investment will propel Outdoors for All's ability to reach thousands more people of all ages. You can create thousands more stories of life transforming experiences through the power of outdoor recreation.

With your support:

- A child with Down syndrome will attend a summer camp created for them.
- A stroke survivor living with paralysis will ski again.
- A veteran with post-traumatic stress will gain rehabilitation through cycling.
- A family with financial instability won't feel hindered from participating.
- A volunteer will match their lifelong passion with altruism.
- An expanded partnership with a hospital will serve a high-need demographic.

We have seen the transformative power of our mission. Now, you can impact even more lives across our community.

Let's launch possibilities, together.

At Outdoors for All, we know that a disability is not what defines a person. Our role is to help each individual discover their strengths, overcome fears, build confidence, and gain independence, all while having fun.

To enrich the quality of life for children and adults with disabilities through outdoor recreation
